

Utopia is a project on the limit state of light, the research for the minimum dimension necessary for pure and essential lighting. It represents full flexibility, in both its design and its light control.

The light strip reaches into space, bending, breaking and drawing abstract, mysterious patterns.

Utopia è un progetto sullo stato limite della luce, alla ricerca della dimensione minima necessaria per illuminare in modo puro ed essenziale.

Rappresenta la massima flessibilità, sia nel disegno della linea che nella gestione della luce. Il nastro luminoso si tende nello spazio, piegandosi, interrompendosi, disegnando grafi astratti e misteriosi.
